

## Double Stars

This could be a fun project: <https://cosmicpursuits.com/1876/hopping-double-stars-in-cassiopeia/>

## Observing

November – do we dare hope for a clear sky? It could happen... Do bring your equipment (and a parka).

## What's your favorite Sky-related thing?

It would be fun to hear a talk from you! All you need is enthusiasm and a little preparation. Think about this – then get in touch with Gretchen or Dale to get on the calendar.

## Hot News Online:

Six interesting articles from six excellent online sources:

### Visitor from beyond the solar system

<https://phys.org/news/2017-10-astronomers-capture-solar.html>

### Privately funded telescope in space

<https://www.universetoday.com/137618/project-blue-building-space-telescope-directly-observe-planets-around-alpha-centauri/>

### “Kilonova” neutron star collision

<http://www.skyatnightmagazine.com/news/light-gravitational-wave-source-detected>

### Identical twin astronauts reveal genetic effects of space travel

<http://www.astronomy.com/news/2017/10/twins-study>

### New Horizons gets a new mission

<https://www.technology.org/2017/10/20/uva-astronomer-selected-to-guide-new-horizons-spacecraft-to-new-tiny-world/>

### Watching the moon for meteor crashes
